- II. After your child reads each book, have them write a short report about the book in his/her journal. It will be necessary for you to spell words for your child as she/he writes in his/her journal.
- III. Turn the journal in the first week of school to his/her first grade teacher in the fall.
- IV. We will also be sending home paper practice books out of our phonics book that are written at their reading level. This will give them additional appropriate reading material for the summer.
